EXECUTIVE SUMMARY: MISSION

The National Science Foundation (NSF) was established by Congress in 1950 as an independent agency of the Federal government with the mission "to promote the progress of science; to advance the national health, prosperity, and welfare; and to secure the national defense. NSF supports fundamental research at the frontiers of knowledge, across all fields of science and engineering (S&E) and S&E education. With an annual budget of about \$8.1 billion (FY 2019), NSF funds approximately 24% of all federally-supported fundamental research conducted by U.S. colleges and universities: this share increases to 60% when medical research supported by the National Institutes of Health is excluded.

NSF accomplishes its mission primarily by making merit-based grants and cooperative agreements to colleges, universities, and other institutions to support researchers throughout the nation. NSF uses a merit review process to select new awards from competitive proposals submitted by the S&E research and education communities. Each year, NSF evaluates approximately 50,000 proposals to make around 12,000 competitive awards. NSF's merit review uses two criteria to evaluate research proposals—intellectual merit (i.e., the potential to advance knowledge) and broader impacts (i.e., the potential to benefit society).

Over the years, NSF-funded research and education projects and world-class S&E infrastructure have led to many significant discoveries. More than 200 Nobel Prize winners received support from NSF at some point in their careers. The highly acclaimed achievements of these laureates are but a small fraction of the advances enabled by NSF, which have, in turn, stimulated economic growth and improved the quality of life, health, and security for our nation.

In order to unleash the United States' innovation potential, it is essential to have a well-prepared S&E workforce, capable of taking advantage of the expanding knowledge base and advanced technology generated by fundamental research activities. NSF meets the U.S. S&E workforce needs by seamlessly integrating the education of future scientists, engineers, and educators into the broad portfolio of research that NSF supports. This investment strategy generates not only groundbreaking S&E discoveries, but it also equips the future S&E workforce with the knowledge and experience to apply the most advanced concepts and technology to meet societal challenges.

EXECUTIVE SUMMARY: MISSION

NSF has a strong commitment to diversity, as reflected in one of the core values in NSF's 2018-2022 Strategic Plan, namely: "*Inclusiveness* – seeking and embracing contributions from all sources, including underrepresented groups, regions, and institutions." Additionally, diversity and inclusion (D&I) are embodied in one of NSF's strategic objectives under the third strategic goal to "Excel as a Federal Science Agency." Specifically: "*Strategic Objective 1 (G3/O1): 'Build an increasingly diverse, engaged, and high-performing workforce by fostering excellence in recruitment, training, leadership, and management of human capital.'*" NSF has a strong commitment to diversity and to taking the necessary actions to attain model EEO status.

NSF's total workforce for FY 2019 consisted of 1,504 employees – 1,290 permanent and 214 temporary – according to the Federal Personnel Payroll System (FPPS). The NSF staff are distributed across seven science, technology, engineering and mathematics (STEM) directorates and five business offices. The STEM directorates include many temporary employees in both temporary federal appointments and as Visiting Scientists, Engineers, and Educators (VSEEs, which includes the members of the National Science Board). NSF does not employ wage-grade workers.

EXECUTIVE SUMMARY: WORKFORCE ANALYSES

SUMMARY ANALYSIS OF NSF'S WORKFORCE

Over the last fiscal year, there has been an increase in the diversity of NSF's workforce, as a result of recruitment and retention activities. Additionally, NSF has made strides towards attaining model Equal Employment Opportunity (EEO) status as defined by the EEO Commission (EEOC). NSF's workforce strategy seeks to serve not only the Federal workforce but the wider academic and research communities.

The EEOC requires that agencies compute the net change within a demographic group, within the workforce, between two time periods. This net change is calculated by taking the difference between the number of employees in a demographic group at the end of the current fiscal year and the prior fiscal year and dividing this number by that in the prior fiscal year. If a group's percentage decreased, that net change is negative. If a group displays a net change lower than that for the total workforce, there may be a barrier to enhancing participation.

Consistent with NSF's mission, a number of Broadening Participation grant programs seek to increase diversity in the wider academic and research communities, which supply the talent pool for staff serving under Intergovernmental Personnel Act (IPA) appointments, who are considered vital to NSF's mission, but who are not included as employees in FPPS and, therefore, are not included in tabulations in this report.

NSF Workforce by Race/Ethnicity and Sex

The EEOC requires that agencies compute the net change within each demographic category in the agency workforce, between the fiscal year just ended and the previous fiscal year. Overall, the NSF workforce relatively remained the same in FY 2019 compared to FY 2018. However, in Table A1, the demographic categories with small numbers show the biggest changes in percentage (Hispanics Males -- 4 (Number Difference) /14.81% (Net Change), American Indians Females (Number Difference) - 2/-33.33% (Net Change), Two or More Races (Males) -- 1 (Number Difference) /50% (Net Change))

The Civilian Labor Force (CLF), as measured by the U.S. Bureau of Labor Statistics (BLS), is a benchmark for determining underrepresentation of demographic categories in NSF's total workforce. Table A1 compares the NSF total workforce data to the CLF. The following groups were below parity:

- Males (11.41% below parity);
- Whites (14.71% below parity); and
- Hispanics/Latinos (5.17% below parity).

EXECUTIVE SUMMARY: WORKFORCE ANALYSES

Conversely, categories over-represented in the NSF total workforce when compared to the 2010 CLF were:

- Females (11.41% above parity);
- Blacks/African Americans (14.98% above parity); and
- Asians (5.41% above parity).

Table 1. NSF Total Workforce, FY 2018 and FY 2019

FY-18	FY-19
Permanent - 1272	Permanent - 1290
Temporary - 216	Temporary - 214

Table 1 disaggregates the NSF workforce by permanent (n=1,290) versus temporary appointments (n=214). Comparing the permanent and temporary workforces is important because of the research on labor force participation that suggests minority group members are more likely than those in the majority group to occupy less secure positions. There were a few ways in which the NSF temporary workforce differed from those in the permanent workforce.

- Males were more likely to be in the NSF temporary workforce (which includes VSEEs), while females were more likely to be in the NSF permanent workforce;
- Asians were slightly more likely to be in the NSF temporary workforce than to be in the permanent workforce.

FY 2019 NSF Permanent Workforce to FY 2019 NSF Temporary Workforce and 2010 Civilian Labor Force

NSF's 1,290 permanent employees in FY 2019 were distributed across 12 components, which include seven "research directorates," which implement programs consistent with NSF's mission and five "offices" that support NSF's mission via business and administrative functions. The demographic composition for each of NSF's 12 components by sex, with the following key findings:

- Overall, 62% of NSF's employees were female, which is higher than the 2010 Civilian Labor Force percentages (48% female);
- Females accounted for at least half of all employees in all of NSF's directorates (Table A2);
- The Mathematics and Physical Sciences (MPS) directorate had the lowest relative number of female employees: 50% (Table A2);

EXECUTIVE SUMMARY: WORKFORCE ANALYSES

- Females accounted for more than 68% of employees in the Office of the Director (O/D) and over 74% of employees in the Education and Human Resources (EHR) directorate (Table A2).

Racial/Ethnic Composition of the FY 2019 NSF Permanent Workforce Compared to the 2010 U.S. Civilian Labor Force (CLF)

2010 Civilian Labor Force (CLF)	2019 NSF Permanent Workforce	Race/Ethnicity
1.76%	1.40%	All Others
3.90%	8.60%	Asians
12.02%	30.23%	African-Americans
9.96%	4.57%	Hispanics/Latino (a)
72.36%	55.19%	White

Source: Workforce Data Table A1

Table A1 of the Workforce Data Tables show the racial/ethnic composition of the FY 2019 NSF permanent workforce. Overall, the NSF workforce had a relatively higher percentage of employees of color (45%) than the comparable U.S. civilian labor force (28%).

Key findings (Table A2):

- Racial/ethnicity composition varied greatly across NSF's components, for example:
 - 65% of the directorate of Biological Sciences total workforce were White, with relatively small representations of Blacks/African Americans (19%) when compared to other offices and directorates;
 - Blacks/African Americans accounted for more than 30% of the total workforce in five components: Education and Human Resources (EHR) 54%, Computer and Information Science and Engineering (CISE) 43%, Information and Resource Management (IRM) 35%, Budget, Finance, and Awards Management (BFA) 32%, and Engineering (ENG) 34%.
 - While Asian employees accounted for ~9% of NSF's overall total workforce and 4% of the Civilian Labor Force, Asians accounted for more than 10% of the permanent workforce in three components: Engineering (ENG) 11%, Social, Behavioral, and Economic Sciences (SBE) 13%, and Computer and Information Science and Engineering (CISE) 11%.
- Hispanics/Latinos accounted for 4.5% of the NSF total workforce, a rate lower than the Civilian Labor Force of 10%; the MPS and OIG components had the highest representation of Hispanic/Latino permanent employees (~6% and 10% respectively).

NSF Workforce by Disability Status

As shown in Data Table B2, NSF's total workforce included 9.46% People with Disabilities (PWDs) and 2.40% People with Targeted Disabilities (PWTDs) in FY 2019. According to the Office of Personnel Management (OPM), in FY 2015, PWDs accounted for 9.40% and PWTDs accounted for 1.11% of onboard career employees in the federal workforce. NSF's representation of PWDs and PWTDs are

above those of the federal government.

Among NSF's new hires (permanent and temporary, averages) in FY 2019, 12.43% were PWDs, 3.25% were PWTDs and 78% reported having no disability status as reported in Table B8.

EXECUTIVE SUMMARY: ACCOMPLISHMENTS

Essential Element A: Demonstrated Commitment from Agency Leadership àFully Met

In FY 2019, NSF met all measures under Essential Element A. Some highlights of accomplishments under this element include the following:

- Disseminated copies of NSF's existing EEO policy statements to all new employees through the agency's New Employee Orientation (NEO) program, Program Management Seminar for new Program Officers, and specialized EEO briefings to the various NSF divisions and/or units.
- Ensured that new managers and existing employees, when promoted to supervisory ranks, were provided a copy of the EEO policy statement when attending NSF's Federal Supervision Training.
- NSF is participating in interagency work related to addressing sexual harassment and other forms of sex-based discrimination in STEM.
- NSF managers and supervisors actively supported the agency's EEO program and objectives by participating in a variety of EEO- and D&I-related training or in which EEO was discussed, including Annual EEO Briefing for Managers and Supervisors.
- Finally, all NSF SES members' performance plans include a D&I element.

Essential Element B: Integration of EEO into the Agency's Strategic Mission àFully Met

NSF continued to meet all measures under Essential Element B.

- Participated in various EEO/diversity training and conferences covering the following areas: EEO investigations; EEO counseling; gender stereotyping; disability program management/reasonable accommodation; EEO complaints process, including dismissal of EEO complaints, motions, hearings, and sanctions; Special Emphasis Program Management; employee engagement; and diversity and inclusion.
- NSF has developed a strategic plan for FY 2018-2022. The importance of Equal Employment Opportunity at NSF is reflected by the inclusion of Ms. Rhonda J. Davis, Head of the Office of Diversity and Inclusion.
- Made available written materials regarding NSF's EEO program to all employees and applicants.
- Updated, revised and disseminated all EEO and related posters throughout NSF facilities addressing the EEO process, harassment, and reasonable accommodations.

EXECUTIVE SUMMARY: ACCOMPLISHMENTS

Essential Element C: Management and Program Accountability àFully Met

NSF continued to meet all measures under Essential Element C. Highlights include:

- ODI staff participated in various learning and development events, including: Diversity and Inclusion Course; New Inclusive Quotient Course; and Conflict Resolution Course.
- Agency staff participated on inter-agency councils and groups, including the EEOC's Director's Meetings, OPM's D&I 60+ Federal Agencies Strategic Partnership, Federal Interagency Diversity Partnership, DOJ's Title VI Working Group, Title IX Inter-Agency Working Group, Veterans Employment Program Working Group, Alternative Dispute Resolution Working Group, and the Renewing NSF Working Group, among others.
- Provide input and assist in the coordination, development, and implementation of the following EEO and related plans, in collaboration with HRM, agency counsel, and other applicable officials:
 - The Annual Federal Equal Opportunity Recruitment Program (FEORP) Plan, which involved targeted recruitment efforts based on a determination of underrepresentation of minorities and/or women in the various occupational categories, both nationally and in specific geographic locations.
 - The Disabled Veterans Affirmative Action Program (DVAPP) Representation and Assessment and Action Plan, which focuses on methods used to recruit and employ disabled veterans, especially those who are 30 percent or more disabled.
 - The Government-Wide Inclusive Diversity Strategic Plan, requires all federal agencies to develop and implement a more comprehensive, integrated, and strategic focus on diversity and inclusion as a key component of their human capital strategies, per an Executive Order issued by the President. Agency staff participate in the planning sessions to update the government-wide D&I Strategic Plan and Implementing Guidance as part of OPM's D&I 60+ Federal Agencies Strategic Partnership. NSF's Diversity and Inclusion Plan provides a shared direction, encourages commitment and creates alignment so NSF can approach its workplace diversity and inclusion efforts in a coordinated, collaborative, and integrated manner.
- Respond, in a timely manner, to compliance issues related to the EEOC and other applicable orders.

Essential Element D: Proactive Prevention of Unlawful Discrimination àFully Met

NSF continued to meet all measures under Essential Element D. Some highlights of accomplishments under this element include the following:

- Analyses to identify and remove unnecessary barriers were conducted throughout FY2019.
- Continued to meet its requirement under the America COMPETES Act Reauthorization, to complete Title IX Compliance Site Visit Reviews.

EXECUTIVE SUMMARY: ACCOMPLISHMENTS

- Continued to work with senior managers in identifying and implementing action plans to eliminate identified barriers. ODI established a standing collaboration with the NSF Academy staff to identify training and professional development opportunities that will support the agency having a Model EEO Program.
- Encouraged the use of ADR to all employees via the EEO Complaints Program, inclusive of supervisors and managers.
- Conducted workforce analyses regarding race, ethnicity, sex, and disability in which the groups were evaluated via workforce profile, major occupations, grade level distribution, compensation and reward system, and management/personnel policies and procedures.

NSF Complaint Activity Analysis

During this period there were 9 complaints filed with a total of 25 bases.

- Age, sex, and race together were the bases for 68% of the 25 bases filed during FY-2019 (n=17).
- Age, sex, and race were tied for the most common complaint basis, accounting for 20% respectively (n=5). The 5 race complaint bases shown included 4 from Black/African American employees (1 repeat filer), and 1 from a White employee.
- Disability was the second most common basis of complaints made to EEO.

Essential Element E: Efficiency à Measures Met

NSF met all measures under Essential Element E. Some highlights of accomplishments under this element include the following:

- Continued to track and monitor all EEO complaint activity throughout the complaints process via iComplaints and other means. The system allows NSF to identify issues and bases of complaints, identify the persons who filed the complaint and the Responsible Management Officials, and enter other relevant information such as requests for extensions and hearings, settlements, etc. to allow NSF to analyze complaint activity and trends.
- Continued to identify and monitor trends in complaint processing to ensure the agency is meeting its obligation under applicable laws.
- NSF maintained an ADR program in which ADR was offered to aggrieved individuals, as appropriate, during the pre- and formal complaint stages of the EEO process.
- Once ADR is elected, all managers are required to participate. Participating managers are required to have the applicable settlement authority.

EXECUTIVE SUMMARY: ACCOMPLISHMENTS

Essential Element F: Responsiveness and Legal Compliance àFully Met

NSF met all measures under Essential Element F. Some highlights of accomplishments under this element include the following:

- Continued to implement a system of management control via ODI and the Office of General Counsel to ensure timely compliance with all orders and directives issued by EEOC Administrative Judges.
- Continued to maintain control over the payroll processing function to guarantee responsive and timely processing of any monetary relief and to process any other form of ordered relief, if applicable.
- Provided, to the EEOC, all documentation for completing compliance in a timely manner.

EXECUTIVE SUMMARY: PLANNED ACTIVITIES

EEOC'S FEDERAL SECTOR COMPLEMENT PLAN REVIEW - FIVE FOCUS AREAS

For this report, NSF focused on the following five areas: (1) Schedule A hires; (2) reasonable accommodations program in regard to NSF's Disability Program; (3) anti-harassment program; (4) barrier analysis of executive level positions; and (5) compliance with EEOC's management directive. In 2014, NSF began to identify relevant benchmarks and promising practices for these focus areas, which are addressed in other agency reports, including the Federal Equal Opportunity Recruitment Program (FEORP) and the Disabled Veterans Affirmative Action Program (DVAAP).

Schedule A hires

In FY 2019, NSF hired five employees with Schedule A Hiring Authority.

Supporting persons with disabilities through reasonable accommodations (RA) in compliance with laws and regulations governing Federal sector equal employment opportunity (EEO) and civil rights is a high priority of NSF. NSF also works to ensure equal opportunity through policy development, workforce analyses, outreach, and education. These programs benefit NSF employees with disabilities, specifically, but also help NSF provide an open and inclusive environment for all employees. NSF's Division of Administrative Services (DAS) continues to provide services, as approved by the Office of Diversity and Inclusion (ODI), to all NSF employees who required reasonable accommodations in their workspaces, such as standing workstations, combination workstations, and other modifications.

NSF continued its partnership with the Department of Defense (DoD) Computer/Electronics Accommodation Program (CAP) to acquire assistive technology and accommodations for individuals with disabilities. In FY 2019 there were 34 accommodations provided, in FY 2018 there were 20 accommodations.

All new employees are provided information about NSF's RA services as a regular part of the onboarding process to ensure persons with disabilities know how to obtain an accommodation. NSF also delivered Disability Employment and Reasonable Accommodations training as part of NSF's Federal Supervision course and Merit Review Basics II. The training included an overview of the laws governing EEO as they relate to disability employment and reasonable accommodations; a description of the process of requesting reasonable accommodations; and the role managers and supervisors play in this process. Frequent sessions are held to provide on-going training to the NSF community about topics associated with Section 508. Beyond NSF's own staff, NSF has provided cross-agency trainings on Section 508 compliance and has been promoting the use of virtual rather than in-person review panels to program officers.

EXECUTIVE SUMMARY: PLANNED ACTIVITIES

Anti-Harassment Program

ODI participated in a number of sessions that provided an understanding for NSF employees of diversity and inclusion and EEO techniques. Courses included:

- Harassment
- Inclusion and belonging
- Retaliation
- Bullying/Abusive Treatment
- Accountability and Performance Management
- Discrimination
- Fair Hiring, Selection, and Promotion
- Documenting Workplace Events and/or Accommodations
- Employee Request for Leave
- NSF continues to develop courses which entails extensive education and training for senior level executives, managers, and supervisors, with content about implicit bias;
- NSF's Equal Opportunity and The Prevention of Harassment policies and EEO complaints processes in compliance with Title VII are prominently posted in agency common areas and communicated to staff on an on-going basis; and
- NSF's explicit external policies include nondiscrimination obligations and compliance with Title IX, both of which are monitored by ODI.

Barrier Analysis of Executive Level Positions

For purposes of this report, the EEOC defines a barrier as "An agency personnel policy, principle, practice, or condition that limits or tends to limit the employment opportunities of members of a particular gender, race or ethnic background or for an individual (or individuals) based on disability status."

Glass Ceiling Benchmarks and SES Pipeline Analyses, FY 2019

Upward Mobility Benchmarks (UMBs) were used to capture the different pathways into the SES for NSF employees. One SES pathway for NSF staff is upward progression through the GS-ranks.

Second, ratios of those in the higher over those in the lower grade level were computed. Ratios less than 1 indicate underrepresentation while

EXECUTIVE SUMMARY: PLANNED ACTIVITIES

those over 1 indicate overrepresentation at the higher grade relative to the lower grade. Key findings include:

- There are few Hispanic/Latino employees at the GS-13-14-15 levels, suggesting this to be a potential source of a barrier for Hispanic/Latino employees;
- The GS-13-14-15 pathway to the SES suggests that white males and females are advantaged towards upward career movement, representing proportionately more employees at each subsequent step along the GS-pathway to the SES; and
- While African American females are overrepresented in comparison to the CLF at the GS-13 level (32%) compared to their overall NSF workforce participation (41%), their proportionate representation significantly declines at the GS-15 level (13%), suggesting this level to be a potential source of a barrier for African American females.

Leadership / Career Development Programs

NSF launched its first Leadership Development Program (LDP) as defined by OPM. The inaugural cohort is comprised of 17 aspiring supervisors and 13 aspiring executives. The program focuses on the development of NSF employees who want to evolve as leaders as executives and senior managers. The LDP develops high-potential employees' leadership capabilities through a combination of on-the-job learning, coaching, mentoring, networking, and classroom training. While the program's goals also include strengthening NSF's internal supply of diverse candidates positioned to be competitive for future supervisory and executive positions, we recognized the need for a more diverse Leadership Development candidate pool.

Plan to Eliminate Identified Barriers

PART I.1

STATEMENT OF CONDITION THAT WAS A TRIGGER FOR A POTENTIAL BARRIER:

Provide a brief narrative describing the condition at issue.
How was the condition recognized as a potential barrier?

Issue #1: Underrepresentation of Race and Sex in NSF's Total Workforce - The agency's total workforce (4.43%) is lower than Hispanics rate of availability in the civilian labor force (CLF) (9.96%) (Tab A1) - The agency's American Indian total workforce (0.47%) is lower than the Civilian Labor Force rate of (1.%) (Tab A1) - The agency's male total workforce (40.43%) is lower than the Civilian Labor Force rate of (51.84%) causing a variance of 11%. (Tab A1)
Issue #2: Advancement of Black/African American (B/AA) female permanent staff - The workforce data indicates the participation rate of B/AA females in the agency's total workforce is 22%, which far exceeds their rate of 7% in the CLF (Tab A1). - B/A- B/AA females occupy 40% of all Management and Program Analysts (0343) positions in comparison to 17% for white males and 25% white females (A6P). A represent 27% of the permanent of workforce (Tab A1). - B/AA females represent 49% of grade GS 7 – 14 positions, in comparison to 9% for white males and 20% white females (A4P) - B/AA females are underrepresented in the permanent workforce at the GS-15 level at 13% in comparison to 36% for white males and 40% white females (Tab A4P) - B/AA females are underrepresented in the permanent workforce at the SES level at 5% in comparison to 40% for white males and 38% white females (Tab A4P) - B/AA females are underrepresented in the "other senior pay levels" (administratively determined) at 5% in comparison to 40% for white males and 35% white females. Issue #3: Lack of Diversity in SES ranks - Significantly less Black Male and Black Females (8%) in the permanent SES, in comparison to White males and females (78%). (Tab A4P) - 75% of the Executive Officials and Managers are White (Tab A3) - No representation of Native Americans, Alaskan and Pacific Islander
Issue #4: Lack of Diversity in AD ranks - 73% of all AD positions are occupied by White employees

STATEMENT OF BARRIER GROUPS:

Barrier Group

- All Men
- Hispanic or Latino Males
- Hispanic or Latino Females
- Black or African American Males
- Black or African American Females
- American Indian or Alaska Native Males
- American Indian or Alaska Native Females

BARRIER ANALYSIS:

Provide a description of the steps taken and data analyzed to determine cause of the condition.

STATEMENT OF IDENTIFIED BARRIER:

Provide a succinct statement of the agency policy, procedure or practice that has been determined to be the barrier of the undesired condition.

Issue #1: According to the data, it appears that Hispanics are not entering the agency at entry level, which is reflected by the low participation rates in low-to mid-grade level positions. The data show that 4.11% of Hispanics separated from the agency in comparison to the 4.7% that were hired in FY18, indicating the separation rate is half the rate of hire. Additionally, Hispanics have low participation rates in many of the major occupations throughout the agency. Awareness of strategies to increase outreach and recruitment to Hispanic/Latinos necessary. Issue #2: According to the data, it appears that B/AA females are not ascending to GS-14 and GS-15 levels and in the SES which may point to challenges with the agency's upward mobility practices and procedures. Networking, career development, and exposure opportunities, may help to increase participation rates in higher positions. For both Issue #1 and Issue #2: Culture of inclusion and engagement.
